

YORPOWER

Diesel Generators

Powering Your Business

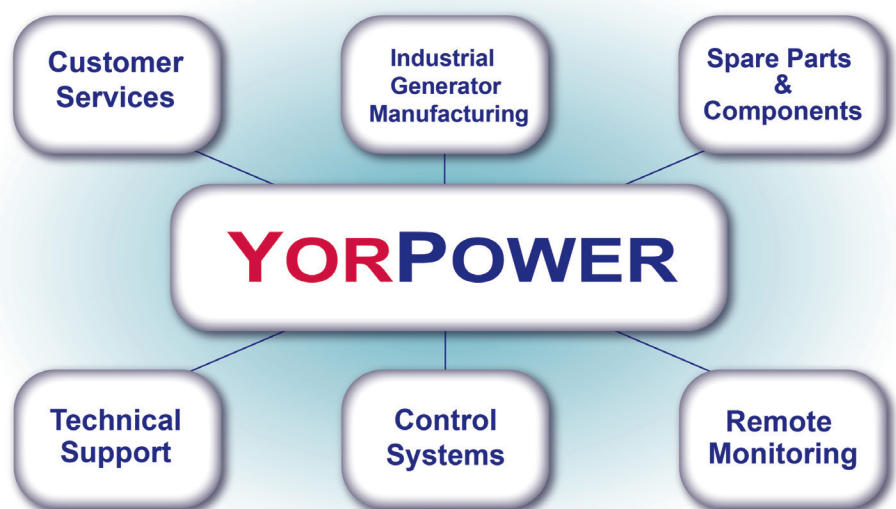

YorPower

Formed in 1989, YorPower has grown to one of the most recognised and successful suppliers of diesel generators in the UK today. The company's growth is based on a simple approach - providing rapid and comprehensive customer service, whatever the requirement and wherever in the world it may be.

Around half of YorPower's annual turnover is exported to customers in more than sixty countries.

YorPower is organised into six operating divisions.

YorPower Manufacturing

YorPower's new manufacturing plant features industry leading technology and component handling equipment.

The overhead gantry cranes are capable of manipulating the heaviest engines alternators and even complete generator sets to and from all parts of the assembly line, component stocks are computer controlled on secure storage racking.

Custom designed acoustic testing rooms and pre-delivery testing stations ensure that all new generators leave the factory ready for the customer.

YorPower Industrial Diesel Generators

Range from 10KVA to 3,000KVA Open or acoustically enclosed. Full design, installation and project management service for all applications.

Supply of all peripheral optional equipment and accessories including ATS, water heaters and service kits.

Start on Demand and Remote Monitoring devices available.

YorPower Core Range

YorPower's core Perkins Power Range extends from 10 kVA up to 2,200 kVA, however we are able to source and manufacture product from as little as 2 kVA up to 3,375 kVA utilising other engine and alternator combinations. YorPower's commitment to providing service led solutions has established the company not just as one of the top 3 leading Genset manufacturer's in the UK, but also as a system designer and installer, with a team of engineers providing 24/7 maintenance for many high profile customers in the UK and beyond. We are looking to replicate this success by supporting the growth of our distributor network globally, and helping these distributors to become the number 1 supplier of choice in their relative territory. Our current distributors enjoy unrivalled back-up, a dedicated support team and the complete confidence that with YorPower gensets they are supplying are the best value for money on the market.
